

BtcRR

Coin Investment Platform

BtcRR is a coin investment desk. Our native coin is launching soon. Until listing, members stake AI bot packages in USDT on BEP20, earn published daily ROI for 300 business days, and climb ranks on unlimited direct sales.

COIN LAUNCHING SOON

- COIN DESK

Native BtcRR coin is preparing to list.
- PUBLISHED BANDS

Daily ROI is a range — never a hidden rate.
- SIX BOT TIERS

From \$500 to \$100,000 in USDT.
- DIRECT RANKS

Four ranks, rewards paid on your directs.

A coin investment desk

BtcRR is built for coin investors. Packages run today in USDT on BEP20 so accounting stays clear while the native coin prepares to launch. Every contract snapshots its daily ROI range, duration, and capital-back rule at purchase.

● Coin-first brand

BtcRR is the name on the desk. The coin listing is the next chapter, not a side note.

● USDT until listing

Package figures, daily ROI, and rank rewards settle in USDT on BEP20.

● Snapshot contracts

What you buy is locked for 300 business days. Terms are not rewritten mid-cycle.

● Direct network

Invite unlimited referrals. Their investments count toward your rank ladder.

RR

BTCRR

Who we are

BtcRR is a coin investment platform with AI bot packages as the live product. Members fund a package, receive published daily profit on business days, get capital back at the end of the cycle, and earn rank rewards from people they personally refer.

Coin investment

The desk is built around the BtcRR coin. Listing details will be announced to members.

AI bot packages

Six tiers, each with a snapshot ROI band and a 300-day cycle.

On-chain funding

Deposits and withdrawals in USDT on BEP20 with a full ledger.

Published ranks

Emerald to Titanium. Rewards pay when direct-sales thresholds are consumed.

BtcRR coin launching soon

The native coin is the next release. Package investors and ranked members are already inside the ecosystem. We will publish listing details to registered accounts — never through a private wallet “presale” outside the official dashboard.

01

TODAY

Stake an AI bot package in USDT on BEP20. Daily ROI posts on business days. Capital returns after 300 days.

02

SOON

The BtcRR coin lists. Members already in packages and ranks are first in line for official launch news.

03

AFTER LISTING

We will publish how the coin sits alongside existing packages. Current contracts keep their snapshotted terms.

Mission & vision

RR

BTCRR

MISSION

To give coin investors a published, auditable desk: AI bot packages in a stable unit of account, daily profit inside a stated band, capital back at cycle end, and ranks paid on real direct sales — while we bring the BtcRR coin to market.

VISION

To become the coin investment platform members trust before, during, and after listing — where every yield figure is published, every rank has a threshold, and the native coin is the brand they already use.

Why join BtcRR

Coin launch access

Members with packages and ranks are already in the BtcRR coin ecosystem before listing.

Published daily ROI

Each package interpolates between a min and max. What you see is snapshotted at purchase.

Capital back

After 300 business days the staked amount returns, on top of daily profit already paid.

Unlimited directs

No left/right placement. Invite as many people as you want. Their investments feed your ranks.

USDT on BEP20

Stablecoin settlement keeps ROI, ranks, and withdrawals in a clear unit until the coin lists.

Four-rank ladder

Emerald, Diamond, Platinum, Titanium — rewards pay when a threshold is consumed.

How BtcRR works

01

Create your account

Register with a referral ID, verify your profile, and open the BtcRR investment desk.

02

Fund a package

Deposit USDT on BEP20 and stake any amount inside a package range from \$500.

03

Earn daily profit

ROI posts on business days inside your snapshotted band for 300 days, then capital returns.

04

Rank and wait on the coin

Direct sales climb the ladder. Stay ready — the BtcRR coin is launching soon.

USDT on BEP20

Until the BtcRR coin lists, every package figure, daily ROI credit, rank reward, and withdrawal is denominated in USDT on BNB Smart Chain (BEP20). That keeps the 300-day cycle in a stable unit of account.

Unlimited direct referral income — earn 5% of each qualified direct activation with no capping limit.

Unlimited referrals

BtcRR does not use left/right binary placement. Everyone you invite sits as your direct. Their package investments count toward your rank thresholds.

NO SPILLOVER TREE

Signups only store who referred them. There is no weaker-leg matching and no binary cap on this plan.

DIRECT SALES = RANK VOLUME

When a person you personally referred invests, that amount is added to your direct sales.

CONSUMED THRESHOLDS

Hit a rank, collect the reward, that volume is used up. Leftover rolls to the next rank.

SAME LINK FOR EVERYONE

Share one referral ID. New members do not choose a side.

Rank & rewards

RECOGNIZE

Published rewards when your directs invest.

MOTIVATE

Each rank consumes its threshold, then the next starts.

GROW

Rewards scale as your direct sales grow.

STAY READY

Ranked members are inside the coin launch list.

YOUR SUCCESS. OUR REWARD. THE COIN IS NEXT.

Ranks are earned on direct sales. Each threshold is consumed — leftover volume rolls forward.

Ranks & rewards

Four published ranks. Matching commission is not part of this plan. Qualify on the investments of people you personally referred.

RANK	DIRECT SALES	REWARD
 Emerald Trader	\$50,000	\$1,000
 Diamond Trader	\$100,000	\$2,000
 Platinum Trader	\$150,000	\$3,000
 Titanium Trader	\$300,000	\$6,000

How ranks **pay**

DIRECT-SALES QUALIFICATION

Only investments from members you personally referred count. Volume from deeper levels does not qualify a rank.

CONSUMED THRESHOLDS

When you hit Emerald at \$50,000, that \$50,000 is used. Leftover starts Diamond. The same rule applies up the ladder.

PAYOUT TIMING

Rank rewards are paid when the rank is achieved. They are separate from daily package ROI and from the 5% direct bonus.

Terms and conditions

- 01 The minimum staking amount is \$500 USDT on BEP20.
- 02 Daily ROI posts Monday to Friday — 300 paid business days, not elapsed calendar days.
- 03 All bot packages are valid for 300 business days. Terms are snapshotted at activation.
- 04 Principal returns 100% at the end of the contract.
- 05 Direct referral bonus is 5% on qualified activations, unlimited, with no left/right placement.
- 06 Ranks pay on direct sales only. Thresholds are consumed when earned. Daily ROI is a published range, not a guarantee.

This document describes published plan terms. Package participation involves risk. Past or projected performance is not a guarantee of future results. The BtcRR coin is launching soon.
